DE

Peter, my apologies again. We are heading back to Boston to watch our grandsons play soccer (and our son, Randy, coaching) on October 18th through October 21st. We will be standing on the sidelines during the annual meeting. If timing allows, I will call in, but I am not hopeful. Here's the notes from the AIC for activity over the last year.

On April 10, 2024 we received notice from Wendy Sallustio (121 Paintbrush Place) regarding their pending design approval of a stand-alone garage. They have withdrawn their application and placed this project on an indeterminate hold.

This is the only activity directed to the GWE Architectural Integrity Committee from October 23, 2023 to October 24, 2024.

I will send our proxy to you, and look forward to hearing more about organizing our fight of the truck route designation for County Road 99. I hope the association members allow you to hire an expert to assist.
